PROFESSIONAL PROFILE

Data Analyst with practical experience transforming raw operational, healthcare and financial data into actionable business insights using SQL, Power BI, Excel and Python. Experienced in data cleaning, data transformation, dashboard development, KPI reporting, ETL processes, data modelling and Business Intelligence solutions through portfolio projects and commercial roles. Demonstrated ability to analyse large datasets, identify trends, investigate data-quality issues and communicate findings clearly to technical and non-technical stakeholders.

Combines analytical capability with commercial experience in procurement, administration and operational reporting, providing a strong understanding of business requirements, stakeholder management, performance monitoring and decision support. Aspiring professional and versatile analyst seeking an entry-level opportunity as a Junior Data Analyst, Business Data Analyst, Data Analyst, MI Analyst or Healthcare Data Analyst.

TECHNICAL SKILLS

Data Analytics: Data Analysis, EDA, Data Cleaning, Data Transformation, Data Validation, Data Wrangling, Data Interpretation, Trend Analysis, Root Cause Analysis, Insight Generation

Business Intelligence & Reporting: Power BI, DAX, Dashboard Development, KPI Reporting, Management Information (MI), Data Visualisation, Business Intelligence, Performance Monitoring, Data Storytelling, Decision Support

SQL & Databases: SQL, MySQL, SQL Queries, Data Extraction, Data Manipulation, Joins, Subqueries, Aggregations, Relational Databases, Database Management

Excel & ETL: Advanced Excel, Pivot Tables, PivotCharts, VLOOKUP, XLOOKUP, Power Query, Data Modelling, ETL Processes, Data Reconciliation, Data Validation

Python: Python, Pandas, NumPy, Matplotlib, Seaborn, EDA, Automation Scripts

Business & Analytical: Commercial Analytics, Customer Analytics, Financial Analysis, Forecasting, Requirements Gathering, Stakeholder Management, Process Improvement, Data Quality, Data Integrity, Data-Driven Recommendations

Tools: Microsoft Excel, Power BI, MySQL Workbench, Jupyter Notebook, GitHub, Microsoft Office

SELECTED DATA & ANALYTICS PROJECTS

NHS Executive Healthcare Analytics Dashboard

SQL | MySQL | Excel | Power Query | Power BI | DAX

- Built a five-page healthcare Business Intelligence dashboard analysing 100,000 appointments across 50 hospitals, 225 doctors and 2,000 patients.
- Developed reusable DAX measures and created executive KPI cards, hospital and doctor rankings, patient demographic analysis, diagnosis analysis, payment analysis, insurance coverage and monthly revenue trends.
- Investigated data-quality and visualisation issues to improve reporting accuracy.

GitHub Repository:

[NHS Healthcare Dashboard](#)

Financial Data Analysis & Forecasting

Python | Pandas | Power BI | Excel

- Developed a repeatable financial analytics workflow using Python and Pandas to clean, transform and analyse transactional data.
- Built repeatable workflows in Python and Pandas to clean, transform, and analyse transactional data, improving accuracy and integrity
- Delivered monthly analysis of income, expenses, average transaction values and actual-versus-forecast reporting to track financial trends
- Designed Power BI dashboards to communicate cash flow changes and provide data-driven recommendations

Commercial Intelligence Dashboard

Excel | Power Query | MySQL | SQL | Power BI | DAX | ETL | Data Modelling | KPI Reporting

- Demonstrated an end-to-end Business Intelligence solution workflow spanning application of SQL queries, data extraction, ETL processes and DAX measures, database management, SQL analysis, data modelling and dashboard development.
- Built interactive Power BI dashboards with KPI reporting, data visualisation and trend analysis to present commercial insights and support stakeholder decision-making

GitHub Repository:

Retail Sales Performance Analytics Dashboard

Power BI | Data Analysis | KPI Reporting | Dashboard Development | Data Visualisation | Sales Performance | Trend Analysis | Business Intelligence

- Developed interactive Power BI dashboards with KPI measures (Total Sales, Transactions, Basket Size) to monitor retail performance and key metrics
- Performed data analysis across products, categories, regions, cashiers and payment methods to identify customer purchasing patterns, sales trends and peak trading periods
- Applied data visualisation, interactive slicers and dynamic reporting to generate business insights, improve performance monitoring and support inventory, staffing, marketing and operational decision-making

PROFESSIONAL EXPERIENCE

Meteorbyte Services – Business Administration Officer Nigeria | Jun 2025 – Jul 2026

- Coordinated operational reporting and consolidated data from multiple sources to improve business decision-making, performance monitoring and stakeholder communication
- Maintained structured records and applied data validation techniques to ensure accuracy, completeness and consistency across operational datasets, supporting HR administration and workforce planning
- Used Excel, Microsoft Office and Agile Scrum practices to streamline workflows, enhance process improvement and support repeatable reporting activities

Criterion Nigeria Ltd – Procurement Manager Nigeria | Sep 2023 – May 2025

- Analysed procurement transactions, supplier performance and purchasing trends using data analysis techniques to support cost-conscious decision-making and operational planning
- Maintained structured supplier and purchasing records, applying data integrity, reconciliation and validation methods to ensure accurate procurement reporting
- Consolidated procurement information from multiple sources into management reports, identifying cost patterns and opportunities for process improvement through stakeholder collaboration

CSS Agudama — Civic & Economics Teacher |Nysc | Nigeria | Jul 2023 – Jun 2024

- Collected and maintained student performance data and academic records.
- Analysed assessment results to identify learning trends and support improvement strategies.
- Prepared reports and presentations using structured information and research findings.
- Developed strong analytical, communication, presentation and organisational skills through working with varied audiences.

EDUCATION

RIVERS STATE UNIVERSITY — BSc, Mass Communication | 2022

GOSPEL INTERNATIONAL COLLEGE, AHOADA, PORT HARCOURT — WASSCE | 2017

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Data Analyst Certification — TS Academy | March 2026
- Data Analytics / AI Certification — Claspstek Academy | In Progress
- Prepare Data for Exploration — Google / Coursera | 2025
- Foundations: Data, Data, Everywhere — Google / Coursera | 2024
- Ask Questions to Make Data-Driven Decisions — Google / Coursera | 2024
- Introduction to Data Science — Cisco Networking Academy | 2024
- National Youth Service Corps Certificate | 2024

ADDITIONAL INFORMATION

- Strong analytical, communication, stakeholder management and problem-solving skills.
- Comfortable working with technical and non-technical stakeholders and presenting analytical findings clearly.
- Open to remote and UK opportunities.
